<https://github.com/akash-kumar-7-git>

Computer Science Engineering graduate skilled in Java, Spring Boot, JDBC, REST APIs, MySQL, JavaScript, React, HTML, and CSS. Strong foundation in OOP, DSA, DBMS, and full-stack development, with hands-on experience building academic and personal projects. Seeking an entry-level Java Full Stack Developer role to apply technical and problem-solving skills.

Education

Sagar Institute of Research & Technology - Excellence Bhopal, Madhya Pradesh

2022 - 2026

Bachelor of Technology in Computer Science Engineering

Relevant coursework; Data Structures & Algorithms, Database Management System, Operating Systems, Object - Oriented Programming Language, Basic Networking.

CGPA : 8.15 / 10

Queen Mary's Sr. Sec. School Bhopal, Madhya Pradesh

2020- 2022

Secondary School (X & XII) Studied Physics, Chemistry, and Mathematics (PCM) under the CBSE Board with a strong focus on academic discipline and analytical skills.

Skills

Languages: Java, JavaScript, HTML, CSS

Frameworks: Spring Boot, React

Database: MySQL, MongoDB

Backend technologies : JDBC, Rest APIs

Tools: Git, GitHub, Vite, REST APIs, Railway, Netlify/Vercel

Concepts: OOPS, Data Structures and Algorithms, Basic Networking & Operating System, DBMS

Academic Projects

Retail Billing Software

November 2025

Developed a full-stack billing system with product management, invoice generation, and secure database integration.

Implemented REST APIs for seamless frontend-backend communication and optimized database queries for faster transactions.

Tech Stack: Java, Spring Boot, MySQL, AWS Console, React, CSS, JavaScript

Audio to Text Transcriber

February 2025

Built a backend service to convert audio into text using AI-based transcription APIs.

Designed REST endpoints for file upload and real-time transcription with efficient error handling.

Tech Stack: Spring Boot, OpenAI API, React, CSS, JavaScript

Soccer League Fantasy

January 2026

Developed a full-stack fantasy sports platform with team selection, player management, and live data handling.

Built responsive UI using React and integrated RESTful APIs with efficient state management.

Tech Stack: React, Vite, Spring Boot, MySQL, Java

Certifications & Extra-Curricular Activities

Project Based Learning through Python

Apr 2024 – May 2024

Completed a 6-day value-added course focused on building real-world projects using Python. (Coding Thinker)

Rank Holder (2 Times)

October 2024 – May 2024

Achieved top academic rank in college for outstanding performance.

International Conference Presentation

14 March 2024 – 15 March 2024

Presented on "Virtual Reality vs Augmented Reality" at an international conference on recent trends in Computer Science, Engineering, and Technology.

Soft Skills

Collaborated effectively in team environments, contributing to planning, coding, and testing phases.

Communicated technical concepts clearly during project development and presentations.

Demonstrated strong problem-solving and analytical skills through hands-on development of Java-based full-stack projects and DSA practice.
